

CARL ANTHONY D. DAYOC

Mid-Level Full Stack Developer | AI Automation Specialist
09816648181 | anthonycarl56@gmail.com | Yati, Liloan, Cebu | eltonyo.site

PROFESSIONAL SUMMARY

Mid-level Full Stack Developer with solid hands-on experience in end-to-end web development, mobile application development, and AI automation. Proficient in JavaScript, PHP, SQL, HTML5, CSS3, and Dart, with proven expertise in React, Next.js, Express.js, Flutter, and Spring Boot. Demonstrated ability to independently build data-driven systems, automated workflows, and user-focused interfaces across both front-end and back-end. A proactive problem-solver who thrives in collaborative environments and continuously adapts to emerging technologies.

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, SQL, Dart, Java

Markup & Styling: HTML5, CSS3

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Flutter, Spring Boot (Basic)

Databases: MySQL, MongoDB

Tools & Version Control: Git, GitHub

Other: AI Automation, Linux (Basic), REST APIs, System Testing & Documentation

WORK EXPERIENCE

Full Stack Developer / AI Automation Specialist

Telpro (Project-based)

Feb. 2026 – May 2026

- Designed and built an automated dialer system to streamline outbound client calls, reducing manual effort and improving contact rates.
- Implemented a Telegram quiz bot using n8n to automatically deliver questionnaires to all members in a group chat, improving team engagement and knowledge sharing.
- Built a custom Language Switcher Plugin for the Cebu Grand Realty WordPress site using Claude Code, enabling site visitors and potential buyers to browse property listings and dynamic content in their preferred language to broaden the site's reach to non-English-speaking clients.

Junior Programmer

BigBlue Logistic Corp. (Full-time)

Aug. 2024 – Aug. 2025

- Contributed to a web-based data logger built with Next.js and MongoDB, enabling real-time temperature monitoring and record management.
- Developed UI components and a mobile interface in Flutter for record monitoring, integrating with a Spring Boot backend.
- Assisted with system testing, debugging, and technical documentation to ensure product reliability and quality.

Front-End / Back-End Developer

CTU Danao Library (OJT)

Feb. 2024 – May 2024

- Assisted in developing a secure login and monitoring system to track library user entry and exit.
- Contributed front-end and back-end features that improved staff workflow efficiency and data accuracy.

Front-End Developer

LOT Transfer Serbisyo Realty (Project-based)

Feb. 2024 – Jul. 2024

- Designed and developed a user-friendly desktop application for client record management with secure, efficient data handling.
- Collaborated with a back-end developer to ensure consistent system performance and seamless data integration.

EDUCATION

Bachelor of Science in Information Technology (BSIT), Cum Laude

Cebu Technological University Sabang, Danao City

2020 – 2024

ICT Programming

Informatics College of Consolacion

2018 – 2020
